

Leadership Skills Programmes

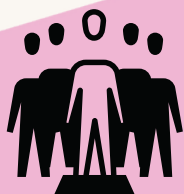

Our qualifications and awards support young people to develop the transferable skills that prepare them for their futures.

Taking on a Leadership Skills programme will give your child the following:

The confidence to believe

As learners work through our qualifications, they take on tasks and activities that grow their confidence and self-belief. According to our last impact survey, eight out of ten learners felt that their self-belief improved as a result of completing their qualification.

The qualities to lead

Our qualifications see young people build the skills they need to play an active role in their community through leading and encouraging others. They learn to coach their peers, support younger learners and become effective team players.

The skills to succeed

The skills our learners develop are universal and in-demand with employers: self-belief, communication, teamwork, self-management and problem solving. Our qualifications carry UCAS points and add nationally-recognised value to their CVs.

How can you support this next step for your child?

Complete the registration form at

<https://westlondonschoolsfa.fillout.com/education>

With your support, we can work together with your school to give your child the chance to develop the skills they need for their future.

“

My course was a massive part of my life. The difference between the person who started their level 1 to the person who completed their level 3 is huge.

The qualifications really helped me build my understanding of working with others, can be applied as much in the workplace as anywhere.

Ahbishna Yogaranjan
Former Leadership Skills programme learner
